

Greetings to All!

Hello...and welcome to another super school year here at Paul Banks! My name is Kim, and I will be your child's school nurse. My door is always open, so please feel free to stop in or call if you have any questions or concerns regarding your child's health.

Please remember the importance of working as a team regarding your child's wellbeing...lice detection starts at home. Please check your child's head frequently.

If your child requires immunizations; please get them completed as the state has implemented new and very strict guidelines that will exempt your child from school if not compliant.

Attached, you will find a form; Health Update Information. Please fill this out, this is different from the required enrollment form. This information is very helpful when I am trying to assess your child, this form helps me to know if...he/she is ill, having an allergic reaction, or having an adverse reaction to a medication. Medication given at home does not need to be disclosed, but knowing what your child takes daily (to include vitamins), really does help to have a holistic picture of your child's health. This would include a short term medication; as most of these have digestive side effects.

One more thing...please send a change of clothes, to include socks, to school with your child now. Accidents do happen, and I don't have many extras here. Also, if your child does borrow clothing from me, please return it as soon as possible.

Thank you for your time and cooperation. I so enjoy taking care of every one of these awesome children!

Nurse Kim 226-1826
